Job Description

CO2 Welder / Welding Machine Operator We are looking for a skilled CO2 welder for an engineering company in the **Pelhřimov district OR Prague** with the possibility of **free accommodation! What awaits you here?**

- Welding using the CO2 method
- Work on state-of-the-art welding robots/machines
- Opportunity for development and qualification expansion
- Long-term cooperation on a full-time contract (HPP)

What do we expect from you?

- Experience in CO2 welding.
- Valid welder's license (min. ZK 135)
- Ability to read technical drawings/documentation
- Willingness to work in a three-shift operation
- Reliability and dexterity

And what's in it for you?

- Excellent SALARY
- Company-paid accommodation
- Contribution towards transport/commuting costs
- Salary advances and the possibility of overtime
- Our own training and practice center where we will teach you everything.

Why work with us?

- You will work in a modern and clean environment.
- Quality accommodation is provided free of charge.
- Everything you need is available on the company premises (doctor, shop, accommodation).
